# How It All Started

Broadway actress Ann Talman performs her solo show for its muse: her brother with cerebral palsy.

Ann was "ordered" into this world in 1957 by Woody, then eight-years-old with severe cerebral palsy. Ann's destiny: to care for Woody if their parents could not. Woody was not expected to live past twelve. He lived to be almost 70.

The show Woody's Order! details Ann's struggles to understand her brother's disorder, build a career, and sustain her sanity while fulfilling her sacred obligations.

The documentary Woody's Order! captures the first time Ann performs portions of the show for its muse, Woody.
